Subject: NEWS: Sasol Louisiana Project Achieves Significant Milestone

NEWS

Sasol achieves beneficial operation of second Lake Charles Chemicals Project production facility

Ethylene oxide/ethylene glycol unit second of seven units to come online

The LCCP continues to transform North America into a major part of Sasol's global business, delivering value for all Sasol's stakeholders.

This success is attributable to our team of Sasol employees and our local, state, federal and international partners who worked for several years to safely enable this milestone.

On behalf of our more than 1,150 Louisiana employees, thank *you* for the support and partnership.
